

It's was a long way back

Been in a head on crash  
with crying Jumping Preachers  
That did immoral things to  
Babies and their mothers

It's was a long way back

I was down with no heat or food  
down on my knees looking up  
at the devil himself

It's was a long way back

With Wind and freezing rain  
And no heat or food

It's was a long way back

Then the crying jumping preachers  
Came back

I was down with no heat or food  
down on my knees looking up  
at the devil himself  
With Wind and freezing rain  
And no heat or food  
It's was a long way back

Then the crying jumping preachers  
Came back
